

ABSTRACT OF THE DISCLOSURE

5 A working scheme reviewing and managing unit can display
problems interfering with a working scheme to a plurality of staffs
to realize the working scheme. The system includes: an itemized
schedule storage means for storing schedules each associated with
each of a plurality of work items to realize the working scheme; an
individual schedule storage means for storing an individual schedule
associated with each of the staffs in connection with the itemized
schedules; an executed work report storage means for storing
10 executed work reports each in connection with each of the individual
schedules; a progress chart generating means for displaying a
progress chart of the working scheme based on the itemized schedules
and the executed work reports; an output means for outputting the
progress chart generated by the progress chart generating means to
15 display the progress chart according to a confirmation instruction
for confirming a progress state of the working scheme; and a
modification means for modifying at least one of the itemized
schedules and the individual schedules according to a modification
instruction based on the displayed progress chart. A working scheme
20 reviewing and managing system has the reviewing and managing unit.
The system also has a display unit that can be seen simultaneously
by all the staffs so that the staffs can review the working scheme
based on information indicated on the display unit. The indicated
information is based on an output from the output means of the
25 reviewing and managing unit.
